

Product Discontinuation Notice

Tempus Pro, Tempus LS-Manual, i2i ReachBak, and IntelliSpace Corsium

For devices within the USA only

July 20, 2026

Dear Customer,

Tempus Pro has been on the market since 2014 and, despite ongoing upgrades over its lifecycle, component and software obsolescence, together with changes in regulatory requirements, we are unable to continue manufacturing and selling the device.

Tempus LS-Manual was bundled with the Tempus Pro to provide defibrillation and therapy capabilities. As the Tempus Pro will no longer be available in the USA, we are discontinuing the Tempus LS-Manual at the same time. If you want to make a last time buy of the Tempus LS-Manual, we will accept orders that are for delivery before December 31, 2026.

We are also discontinuing, and providing an End of Life (EOL) date for, i2i ReachBak and IntelliSpace Corsium.

End of support for existing units will be managed depending on device configuration and serial number, as per the table below, with the Tempus Pro's 5-year service life supported from date of shipment and the Tempus LS-Manual's 10-year service life supported from date of shipment.

Part Number	Device	Serial Number Range	End of Support Date
00-1004 00-1007	Tempus Pro (Non-Rainbow)	030003 - 040264	No longer supported
00-1004-R 00-1007-R 00-1024-R 00-1026-R	Tempus Pro (Rainbow Trizeps 6)	600001 - 604044	31 December 2028
00-1004-R 00-1007-R 00-1024-R 00-1026-R	Tempus Pro (Rainbow Trizeps 7)	604045 - 604165 & 614200 - 617388	31 December 2028
00-3020	Tempus LS-Manual	All serial numbers	31 December 2036
NA	i2i ReachBak	NA	31 December 2026
NA	IntelliSpace Corsium	NA	31 December 2036

We remain committed to supporting your installed base through the defined support period, including providing you with accessories, consumables, service offerings, repair, and spare parts (subject to availability) throughout the defined support period.

For technical support and service, please contact Philips 24/7 CUSTOMerCARE Solutions Center: 1-800-722-9377

Yours sincerely
