

MANAGE SECURITY & MEDICAL ALERTS IN THE MEDAIRE PORTAL

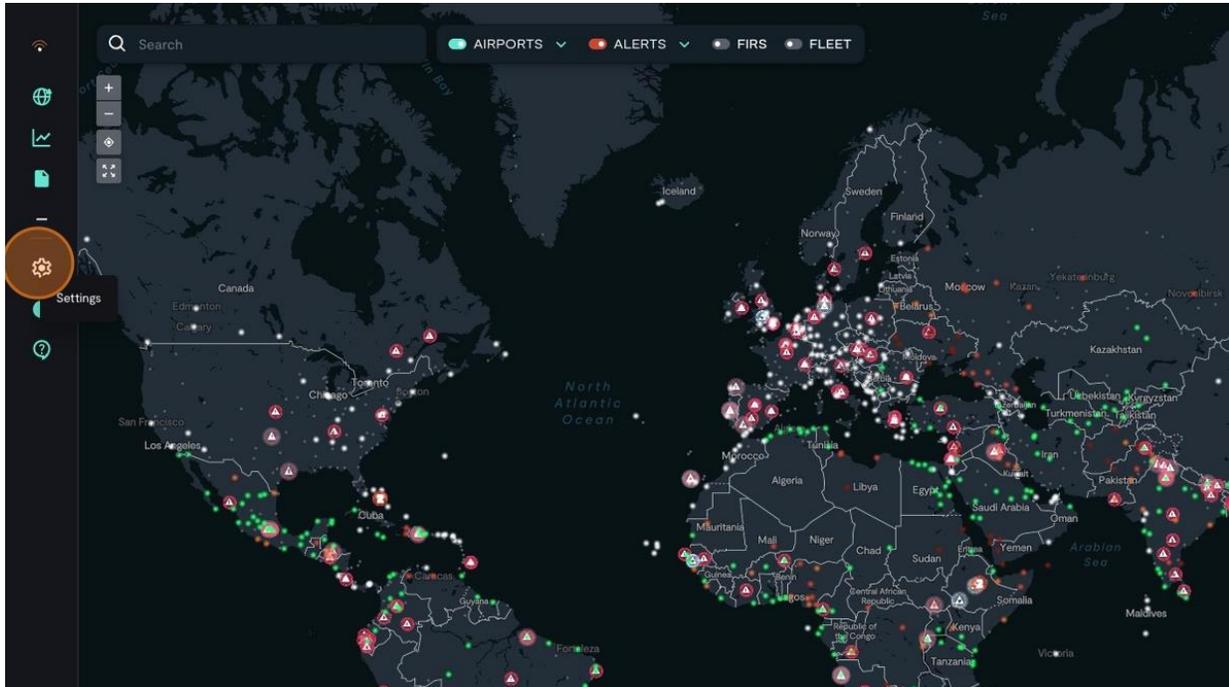

- 1 Navigate to <https://app.medaire.com/app/index.html>

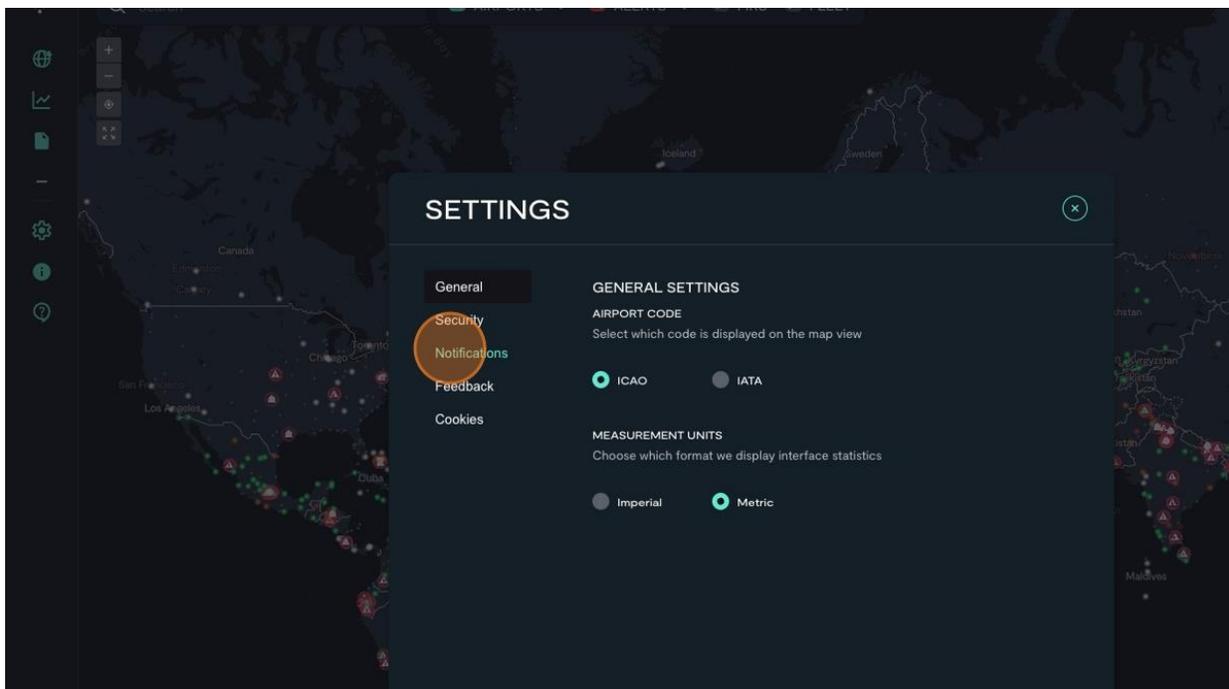

- 2 Click the plus button to open the menu.

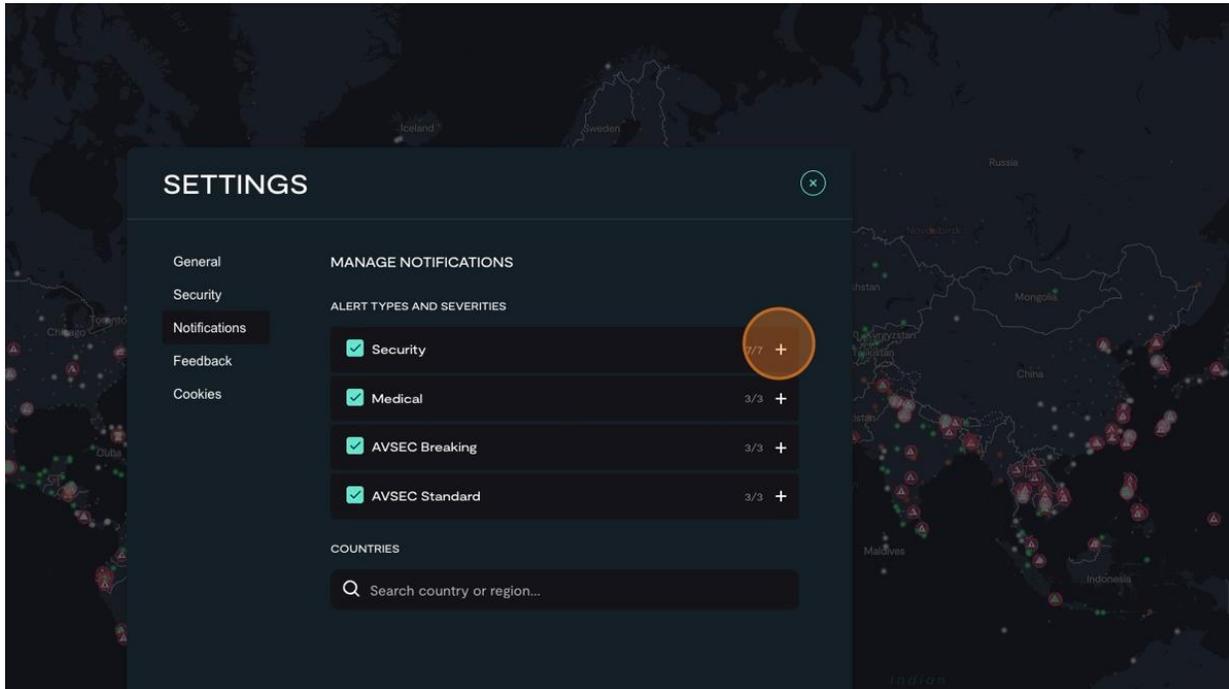

3 Click on the gear icon to open settings.

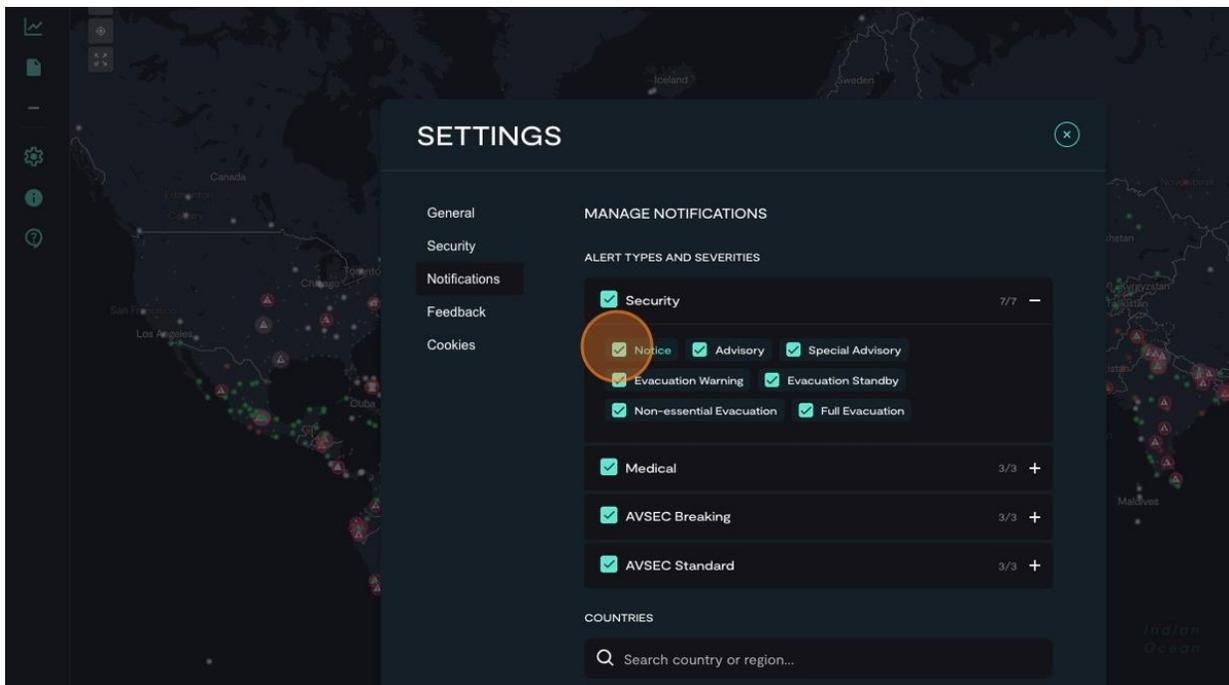

4 Click "Notifications"

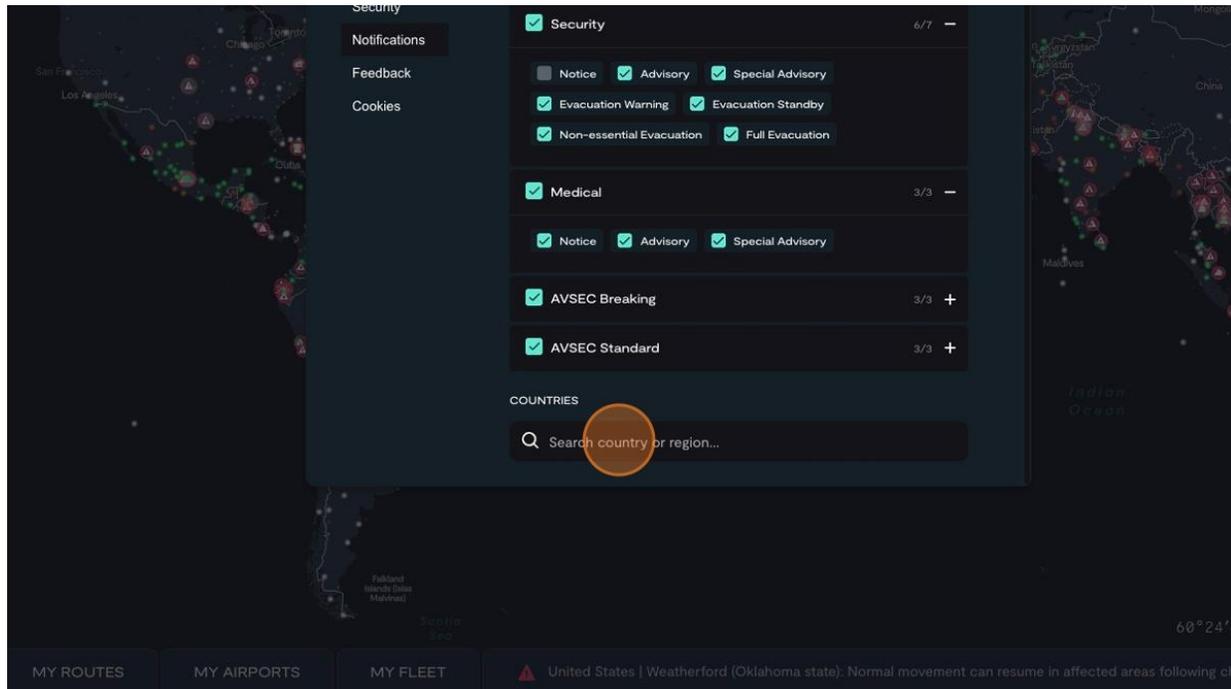

5 From here you can manage the delivery of alerts to your inbox.

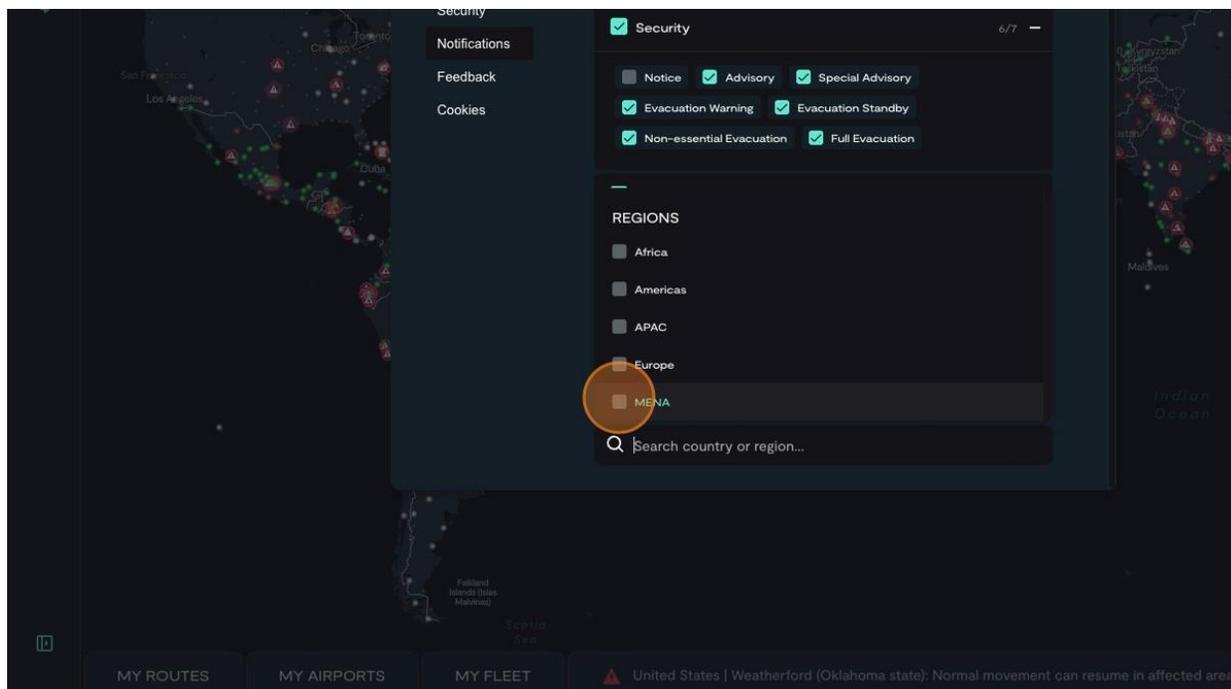

6 Customize alert delivery by type and severity. To turn off delivery of alerts, all boxes under the "Alert Types and Severities" must be unchecked.

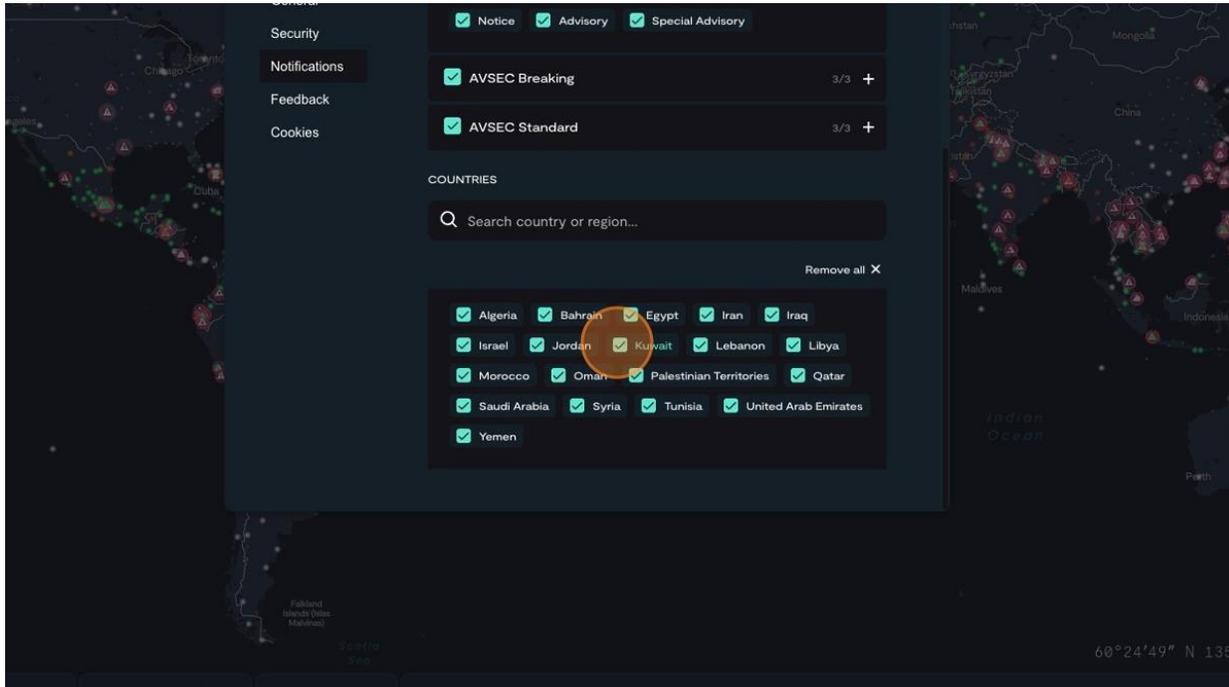

- Click the "Search country or region..." field to refine alert delivery by region and/or country.

- When you click in the "Search country or region..." field, the region selection boxes show and when checked will add all countries for that particular region.

9 From here you can unselect any countries from the region(s) selected.

10 You can also enter the name of a country in the search bar to add a specific country.
